BOUTIQUE HOTEL

WHITEHALL, *CAMDEN*

Though the core of Whitehall may be an 1834 sea captain's home, the building has progressively accreted rooms since becoming an inn in 1901. Reimagined in 2015 as a chic coastal getaway, the 36-room hotel and its rambling porches sprawl across green lawns between the rounded peak of Mount Battie and the lapping blue waters of Penobscot Bay. Touches like aged barn board and grasscloth wall coverings produce a breezy contemporary decor that still echoes the leisurely rusticators of a century past. *207-236-3391; whitehallmaine.com*
